Date : 5th August 2021

Subject : The Minister of Finance by the Revenue Department cooperated with Nonthaburi Province to establish the Community Isolation at the 100 Year Building

On 4th August 2021, Mr. Arkhom Termpittayapaisith, Minister of Finance with executives from the Minister of Finance visited the area and prepared for the opening of the Community Isolation at the Tax Collection Development Institute or the 100 Year Building, the Revenue Department, Nonthaburi Province. The building is to support people's isolation from Coronavirus disease 2019 (COVID-19) infection in accordance with the Minister of Finance's policy in supporting public health work.

Mr. Ekniti Nitithanprapas, Director-General of the Revenue Department stated that, "The Tax Collection Development Institute or the 100 Year Building is a place for development of the Revenue Department's officers and various training programs for government officers. The building has been operated since early 2021. Due to the spread of COVID-19, the Revenue Department realizes the importance of providing COVID-19 patients to enter to the primary care system with a team of doctors from the hospital in a timely manner to reduce the chance of death. The building helps isolating people infected with COVID-19 from their family and community. This will reduce the chance of spreading COVID-19. Therefore, the Revenue Department cooperated with Nonthaburi Province and Pranangklaohospital to establish the Community Isolation where there will be approximately 200 patients to be accommodated. The building will be appropriately cleaned to assure that the infection does not spread and it is safe to use after the spread of COVID-19."
